

Gladkokken

POWER BLENDER

INSTRUCTION MANUAL GK-4271

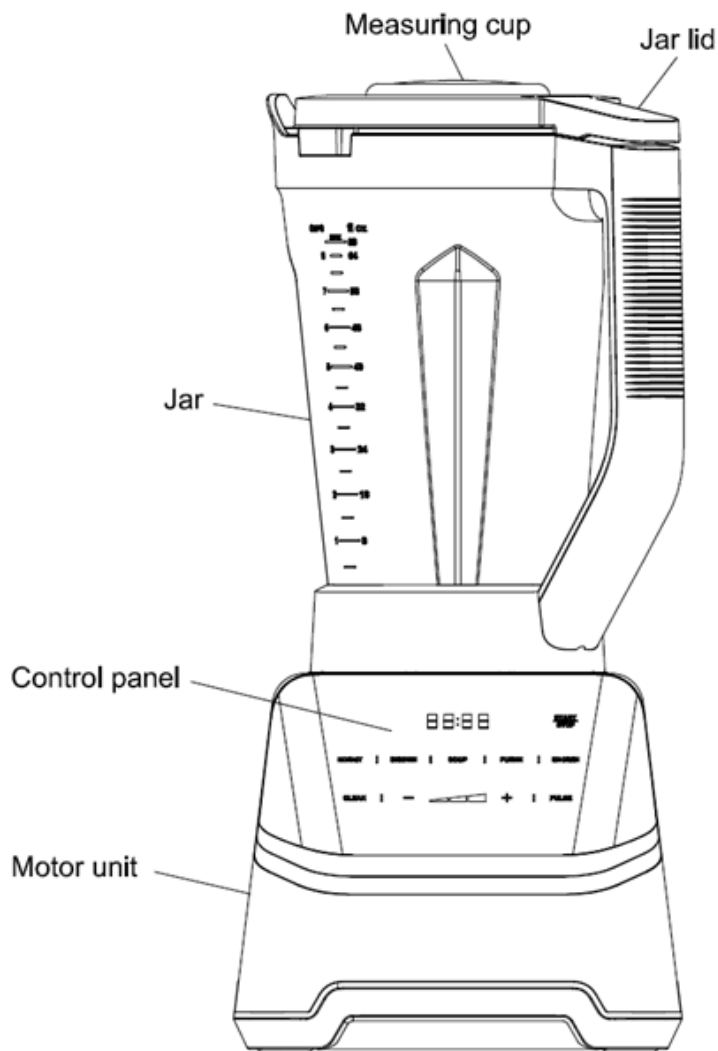

IMPORTANT SAFEGUARDS

Ved bruk av dette elektriske apparatet bør følgende grunnleggende sikkerhetsforanstaltninger overholdes:

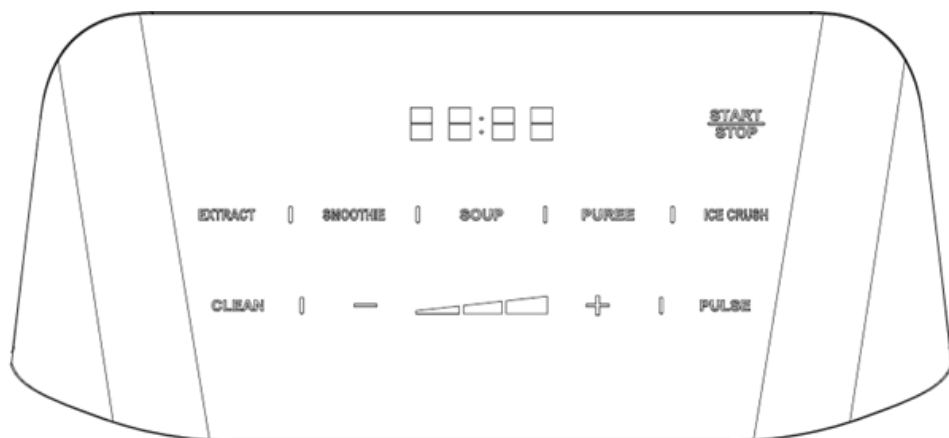

1. Read all instructions.
2. Before using, check and make sure that the voltage power corresponds to the one shown on the appliance nameplate.
3. Do not let cord hang over edge of table or counter.
4. Do not place on or near a hot gas or electric burner, or in a heated oven.
5. Do not operate any appliance with a damaged cord or plug or after the appliance malfunction or has been damaged in any manner. Return the appliance to the nearest authorized service facility for examination, repair or adjustment.
6. If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
7. Always disconnect the blender from the supply if it is left unattended and before assembling, disassembling or cleaning.
8. Switch off the appliance and disconnect from supply before changing accessories or approaching parts that move in use.
9. Avoid contacting moving parts.
10. Do not leave foreign objects, such as spoons, forks, knives or the measuring cup, in the jar as this will damage the blades and other components when starting the machine and may cause injury.
11. Care shall be taken when handling the sharp cutting blades, emptying the bowl and during cleaning.
12. The use of attachment, including jar, jar lid, not recommended or sold by manufacturer may cause fire, electric shock or injury.
13. Never run the appliance empty.
14. Please be careful when empty the hot soup in the jar.
15. To protect against risk of electrical shock do not put motor unit or power cord in water or other liquid.
16. Keep hands and utensils out of jar while blending to reduce the risk of severe injury to persons or damage to the blender.
17. If scraping is necessary, turn the power OFF, unplug from the electrical outlet, and use a rubber spatula only.
18. Always operate blender with lid in place.
19. Never put non-food items into the jar for blending.
20. Do not open the lid before the blade stops running completely to avoid hazard.
21. Do not put hands or other objects into jar during working.
22. Appliance can be used by persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.
23. This appliance shall not be used by children. Keep the appliance and its cord out of reach of children.
24. Children shall not play with the appliance.
25. Do not allow children to use the blender without supervision.
26. Misuse may cause potential injury.
27. Do not use outdoors.
28. Save this instruction.

HOUSEHOLD USE ONLY

KNOW YOUR BLENDER

USER INTERFACE

FOR THE INITIAL USE

1. Unpack the appliance and place all parts on a horizontal surface.
2. Immerse the jar, jar lid and measuring cup in warm soapy water and then rinse them and dry. Never immerse motor unit in water for cleaning to prevent the risk of electric shock.

CAUTION: The blade is very sharp, please handle carefully.

OPERATION

EXTRACT (juice blending)

1. Put the ingredients in the recipe into the blending jar in sequence, install the measuring cup, cover the jar lid, and connect the blender to power supply.
2. After powered on, the control panel lights up to enter the default interface for function selection. Press the "EXTRACT" button, and then the "START/STOP" button. The EXTRACT program

will automatically run, and the timer on the control panel will start counting until the blending is completed. After the appliance is stopped, the control panel will enter the default interface for function selection again.

3. During the automatic operation of the blending program, pressing the "EXTRACT" or "START/STOP" button can pause or end the running program.

Warning: The jar lid and measuring cup must be closed properly before blending. The appliance should be stopped if you want to add ingredients during blending. Never extend your hands in the blending jar when the blender is powered on.

Recipe	Ingredient
Apple Juice	A Full apple: 300g Water: 150g Sugar: 15g Lemon juice: 10g

SMOOTHIE

1. Put the ingredients in the recipe into the blending jar in sequence, install the measuring cup, cover the jar lid, and connect the blender to power supply.
2. After powered on, the control panel lights up to enter the default interface for function selection. Press the "SMOOTHIE" button, and then the "START/STOP" button. The SMOOTHIE program will automatically run, and the timer on the control panel will start counting until the blending is completed. After the appliance is stopped, the control panel will enter the default interface for function selection again.
3. During the automatic operation of the blending program, pressing the "SMOOTHIE" or "START/STOP" button can pause or end the running program.

Warning: The jar lid and measuring cup must be closed properly before blending. The appliance should be stopped if you want to add ingredients during blending. Never extend your hands in the blending jar when the blender is powered on.

Recipe	Ingredient
Banana smoothie	Milk: 650g Banana: 350g, cut into 2 pieces Ice cube: 5 pieces, size: 20×20×20mm White sugar: 15g

SOUP

1. Put the ingredients in the recipe into the blending jar in sequence, install the measuring cup, cover the jar lid, and connect the blender to power supply.
2. After powered on, the control panel lights up to enter the default interface for function selection. Press the " SOUP " button, and then the "START/STOP" button. The SOUP program will automatically run, and the timer on the control panel will start counting until the blending is completed. After the appliance is stopped, the control panel will enter the default interface for function selection again.
3. During the automatic operation of the blending program, pressing the " SOUP " or "START/STOP" button can pause or end the running program.

Warning: The maximum blending amount of SOUP program is 1L
The temperature of the ingredients poured into the jar should not exceed 90°C;
The jar lid and measuring cup must be closed properly before blending.
The appliance should be stopped if you want to add ingredients during blending.
Never extend your hands in the blending jar when the blender is powered on.

Recipe	Ingredient
Tomato soup	Tomato: 750g Red chili: 135g Cashew nut: 90g Basil leaves: 6pcs Salt: 1g Pepper: 0.5g

PUREE (Jam)

1. Put the ingredients in the recipe into the blending jar in sequence, install the measuring cup, cover the jar lid, and connect the blender to power supply.
2. After powered on, the control panel lights up to enter the default interface for function selection. Press the " PUREE " button, and then the "START/STOP" button. The PUREE program will automatically run, and the timer on the control panel will start counting until the blending is completed. After the appliance is stopped, the control panel will enter the default interface for function selection again.
3. During the automatic operation of the blending program, pressing the " PUREE " or "START/STOP" button can pause or end the running program.

Warning: The jar lid and measuring cup must be closed properly before blending.
The appliance should be stopped if you want to add ingredients during blending.
Never extend your hands in the blending jar when the blender is powered on.

Recipe	Ingredient
Tomato butter	Tomato 1000g

ICE CRUSH

1. Put the ingredients in the recipe into the blending jar in sequence, install the measuring cup, cover the jar lid, and connect the blender to power supply.
2. After powered on, the control panel lights up to enter the default interface for function selection. Press the "ICE CRUSH" button, and then the "START/STOP" button. The ICE CRUSH program will automatically run, and the timer on the control panel will start counting until the blending is completed. After the appliance is stopped, the control panel will enter the default interface for function selection again.
3. During the automatic operation of the blending program, pressing the "ICE CRUSH" or "START/STOP" button can pause or end the running program.

Warning: The jar lid and measuring cup must be closed properly before blending. The appliance should be stopped if you want to add ingredients during blending. Never extend your hands in the blending jar when the blender is powered on.

Recipe	Ingredient
Ice crush	Ice crushing capacity: less than 400g Ice size: smaller than 45*45*45mm Ice storage: Deeply freeze at -18 °C

CLEAN

1. Add 700mL water and 2 drops of cleaning agent, install the measuring cup, cover the jar lid, and connect the blender to power supply.
2. After powered on, the control panel lights up to enter the default interface for function selection. Press the "CLEAN" button, and then the "START/STOP" button. The CLEAN program will automatically run, and the timer on the control panel will start counting until the blending is completed. After the appliance is stopped, the control panel will enter the default interface for function selection again.
3. During the automatic operation of the blending program, pressing the "CLEAN" or "START/STOP" button can pause or end the running program.

Warning: The jar lid and measuring cup must be closed properly before blending. The appliance should be stopped if you want to add ingredients during blending. Never extend your hands in the blending jar when the blender is powered on.

PULSE

"PULSE" mode is used for processing food at the highest speed. You can activate the "PULSE" mode as required. Hold and press "PULSE" button to make the appliance keep processing food. To make the appliance stop working, release "PULSE" button.

STEPLESS SPEED

1. Pour the ingredients in the recipe into the blending jar after cooking, install the measuring cup, cover the jar lid, and connect the blender to power supply.
2. After powered on, the control panel lights up to enter the default interface for function selection. Press the "+" or "-" button as wanted, the speed setting will be shown on the panel, and then the "START/STOP" button. The blender starts automatically, and the timer shows the blending time sequentially. After the desired blending effect is reached, press "START/STOP" to end the running program and re-enter the function selection interface.

Note: When the single operation time exceeds 3 minutes and 30 seconds, the motor will automatically stop working and enter the self-protection mode, and it needs to be re-powered on when it starts running again.

Warning: The maximum blending amount of SOUP program is 1L. The temperature of the ingredients poured into the jar should not exceed 90°C; The jar lid and measuring cup must be closed properly before blending. The appliance should be stopped if you want to add ingredients during blending. Never extend your hands in the blending jar when the blender is powered on.

Recipe	Ingredient	Tid
Carrot Juice	Carrot 800g Water 1200g	1 Minute

Blending speed icon “”

The blending speed icon “” shows the motor rotation visually.

- When the progress bar lights up 1 bar, it means that the motor is running under load in the low- speed range
- When the progress bar lights up 2 bars, it means that the motor is running under load in the middle-speed range
- When the progress bar lights up 3 bars, it means that the motor is running under load in the high-speed range
- When the progress bar illuminates in the cyclic order of 1 bar, 1+2 bars, 1+2+3 bars, it means that the motor is running under ultra-low speed range, indicating the need for appropriate acceleration.

CLEANING AND MAINTENANCE

NOTE: Before cleaning, make sure the appliance is unplugged.

1. To clean the blender and blade assembly easily and rapidly in complete safety. Follow the operation of (1)-(2) as below to perform cleaning.
 - After use, reassemble the jar and pour about 400-500ml warm water into it.
 - Unplug the appliance and then remove the jar from the motor unit, then rinse the jar under running water.
2. Wiping the outer surface of motor unit with a damp cloth, do not use abrasive cleansers. Never immerse it in water or other solution for cleaning.
3. All parts except the motor unit are dishwasher-safe. You can also wash the parts, except the motor unit, in warm, soapy water.
4. Dry all parts and then reassemble them again. But store the appliance with the jar lid not be closed completely to allow air to circulate and prevent jar odors.
5. If any problem has been encountered during use, never disassemble the Motor Unit by yourself, there are no user serviceable parts inside. Contact only the authorized service facility for examination and repair.

WARNING:

1. The blade is very sharp, handle carefully when clean.
2. Do not use abrasive cleaners. Never immerse the Motor Unit in water for cleaning.

ENVIRONMENT FRIENDLY DISPOSAL**You can help protect the environment!**

Please remember to respect the local regulations: hand in the non-working electrical equipments to an appropriate waste disposal centre.
